

# PSI Bulletin Errors

***Applies to Washington State electrical license exams provided by PSI***

**NOTE:** It's clear to us that PSI has not updated their content tables contained in the bulletin since the 2005 version of the NEC. All of our practice exams have been updated to reflect the stated 2020 version of the code.

NEC Article	Details
280-285	Replaced by 242 (in 2020)
490	Voltage > 1000 not > 600 (in 2014)
780	Removed from NEC (in 2008)
800	Moved to 805 (in 2020). Now covers general requirements for all communications systems from 805 to 840
840	Covers premises powered broadband communications (added in 2011)
